

**We own a store that sells motorcycle spare parts and a nice house which is located not far from the store. The position of the front door of our manor style house is not in the middle. Our wise friend, Mr Lim, suggested that we move the position of the front door to the middle. After following the suggestion, we could experience the positive result. Within 6 (six) months after we moved the position of our main door, the income from sales in our store has tripled.**

**We really appreciate the advice from our wise friend, Mr Lim. We hope Mr Lim will become more successful and happier in his life.**

**May all beings be happy**

**Alvin and Linda (Jakarta, Indonesia)**
