

this is a testimonial in regards to suhana lim and his recommendations of feng shui at my business monkey magik tattoos, frankston, victoria. i asked lim to take a visit through my shop ( before any painting or any fittings were installed) and in working with my design concepts and colour scheme choices, we came up with, what i regard as an impressive layout with minimum clutter. a bright and energetic workplace that i have felt has an aura of 'welcomeness' to it . all customers feel at ease instantly as they walk through the door. business is very constant and within the first few days i have been inundated with requests for work. to the tune of four weeks booked solid in advance!! i couldn't have asked for a better start, and i firmly believe, that what has been achieved in the short space of time since our grand opening, has a great deal to do with lims help with his feng shui practices. i would gladly recommend suhana lim to anyone requiring help and guidance with feng shui, and best of luck to those who do. andrew mclean monkey magik tattoos.
