

Date 30/6/10

To Suhana,

It has been approximately 12 months since we first met with you and invited you into our home. Since meeting with you and implementing the changes you suggested we believe we have had significant changes in our day to day lives that we attribute to the changes that you suggested at the time. You were able to provide us with a clear picture of what changes we were to make in our home to create the positive energies which have enabled us to move forward with greater confidence and certainty.

On your original visit you spent a number of hours going through the layout and design of our home and discussing in detail what changes would be best for our family and our careers. At the time you provided us with your contact numbers and email address and advised us to contact you if we were unsure of something. Since that day I have contacted you a number of times via email and phone and you have always been more than happy to help and this is much appreciated.

So my husband and I would like to take this opportunity to thank you for all your help and honesty in your suggestions. We would also like to say that we would highly recommend you to anyone requiring your services. Thanks again.

Regards,

Silvana Peluso
